## PALM OIL

**Rich in Vitamin E (Tocotrienols):** Unlike most vegetable oils that only contain tocopherols, palm oil is a potent source of tocotrienols. These are strong antioxidants that may help protect brain health, slow the progression of dementia, and reduce stroke risk.

**Heart Health (Mixed Evidence):** While high in saturated fat, some studies suggest that when replacing trans fats, palm oil can have a neutral or even positive effect on "bad" LDL cholesterol levels
